**ONE TRACTOR FOR ALL AGRICROPS
SEASONS
START YOUR OWN FARM IN YOUR COUNTRY**

WITH THE RIGHT TOOL FOR THE JOB IT TAKES LESS WORK TO DO MORE

Tractor has output power of 90 HP and designed for versatile agricultural applications, including ploughing, harrowing, seeding, spraying, and transport operations YTO Excellent four-cylinder direct injection diesel engine with high fuel efficiency and high torque output;

Hydraulic lifting device adopts force adjustment, position adjustment, and individual control of force and position;

Have dual action standard clutch for easy control and reliable performance; special material for friction plates with high reliability and maintenance cost

Have 12F+12R -type gear for quick shifting of forward and reverse gear, has a variety of gear selections and a reasonable velocity distribution

A new waterproof front axle is used on the four-wheel, drive model, which can provide you reliable steering performance in harsh and paddy environments with double steering cylinders and great waterproofness.

It is equipped with 4WD and offer significantly better traction, stability, and pulling power, especially in muddy fields, slopes, and heavy-load conditions, ensuring higher working efficiency and reduced wheel slippage.

Model	QLN904
Feature	
Tractor has output power of 90 HP and designed for versatile agricultural applications, including ploughing, harrowing, seeding, spraying, and transport operations	
Drive	4WD (4X4)
Engine Type	4-Stroke, Direct Injection, Water-Cooled Diesel Engine
Horsepower	90 HP
Rated power/speed	68 Kw@2300rpm
Engine cc	5130
Displacement	5.13L
Engine Standard	BSII standard
Number of cylinders	4
Fuel tank capacity	sufficient for 12 hours continuous operation.
Transmission Type	constant Mesh, reputed international Brand
Differential type (front/rear)	Closed, 4 planetary bevel gears / Closed, 4 planetary gears, reputed International Brand.
Drive type	Spiral bevel gear / Planetary gear, reputed International Brand
Speed Range (km/h)	2 - 30
Clutch	11inch, double acting, semi-independent, dry clutch
Differential lock	YES
Battery type	Maintenance free battery, 12V, min. 120ah
Hydraulic lifting cylinders	2 pcs
Gearbox	12F+12R
Brake Type	Dry type, single disc type, mechanical operation
Steering Type	Hydraulic Steering
Lifting Capacity	1590 kg
Front Tire Size	9.5-20
Rear Tire Size	14.9-30
Weight	2500 kg
Ground clearance	325 mm
Wheelbase	2040mm
Wheel track	1300 mm

The tractor has dual hydraulic lifting cylinders, providing strong and stable lifting capacity with no strain, even when handling heavy implements. It has hydraulic power steering system to deliver smooth, precise, and effortless steering, greatly reducing operator fatigue during long working hours. In addition, it has the dual-stage clutch to allow independent control of the transmission and PTO, improving operational flexibility and safety. The dual-speed PTO enable compatibility with a wide range of implements, making the tractor highly adaptable to different farming needs. It has four-cylinder direct injection diesel engine with high fuel efficiency and high torque output.
